GUIDANCE**

# 'Safe to Play! REOPENING GUIDANCE

Updated June 9, 2020

# New York State Recreation and Park Society

The New York State Recreation & Park Society (NYSRPS) is the principal organization advancing the value of parks, recreation, and leisure services through professional development of its members and citizen engagement.

**NYSRPS is pleased to introduce 'Safe to Play!' a comprehensive guidebook containing suggested safety measures when reopening recreational activities. Information prescribed is specifically for Regional Advisory Boards, State /local officials, and recreation providers so key decision makers have appropriate tools to make informed and guided determinations for reopening while mitigating the spread of COVID-19 within their communities.**

'*Safe to Play!*' is based upon CDC's suggested practices outlined for Communities, Schools, Workplaces, and Events. More specific guidance offered by the National Recreation and Park Association, American Camp Association, YMCA, and multitude of sport specific associations helped build this proposal. Special thanks to our neighbor and friend, the Pennsylvania Recreation and Park Society, who contributed greatly generously sharing PA's reopening protocols.

**It is important to note, where 'Safe to Play' guidelines differ with local regulations or future definitive state guidance, NYSRPS defers to those authorities.**

NYSRPS is committed to helping our members and partners take necessary steps to help prevent the spread of the COVID-19 pandemic in the parks and public spaces they manage, and make well-informed decisions on adaptive and emergency operations.

As communities begin to see reductions in virus transmission, local park and recreation professionals are developing plans for reopening spaces, facilities and programs impacted by the pandemic. Agencies should adhere to all federal, state and local guidance, including meeting a set of outlined indicators and gating criteria prior to implementing a phased approach that prioritizes public health and safety when reopening. Park and recreation professionals should recognize that phased reopening plans will not be an immediate return to normal operations; rather, they should include additional mitigation measures to maintain states of low to no community transmission.

Agencies should consider in their plans how they will ensure that community members are adhering to CDC personal protective measures including wearing face coverings, physical distancing, encouraging proper hygiene, etc. Plans should also identify further mitigation and control measures that can be adjusted as the situation changes, as well as communication procedures and emergency responses. Agencies should consult attorneys regarding their 'Hold Harmless' policies and park use permits.

## The NRPA-NYSRPS Path to Recovery Framework

NYSRPS is a State Affiliate of the National Recreation and Park Association (NRPA) and offers this planning framework. It is refreshed often with updated resources.

1. Creation of Cross Sector Recovery Team
2. Meeting Essential Public Health Indicators
3. Assessing the Risk of Spaces, Facilities and Programs
4. Centering Health Equity in Recovery Efforts
5. Phased Reopening Planning – Gradually Restoring Operations
6. Specific Guidance for Common Park and Recreation Spaces, Facilities and Programs
7. Developing a Communications Plan
8. Staff Training and Measures to Protect Staff and Public
9. Cleaning and Disinfection Practice
10. Managing Contracts and Vendor Relationships to Ensure Safety
11. Securing Critical Supplies
12. Evaluating and Informing Emergency Plans
13. Resource Database – National and Local Reopening Resources

**NYSRPS COVID-19 Resource Center** is a shared library offering many more resources for the industry from associated partners, professional sport associations and recreation providers.

Marinas	25
Pools, Indoor & Outdoor	26
Splash Pads & Aquatic Structures	27

## Supplemental Resources

A collection of resources may be found at [NYSRPS/COVID RESOURCE LIBRARY](#) as provided by the CDC, NY Department of Health, NY Forward, American Camp Association, YMCA, Little League, to name a few. This reference library will grow as industry best practices are made available.

**Active Zone**, as used in these guidelines, is not defined in square feet or specific dimensions, since every facility and activity is different. In pools it may refer to areas that can be separated for distinct uses, like swim lanes, diving area, or kiddie pool. In addition, it is used here to manage and maximize distancing between individuals and simultaneous groups, while also fulfilling the purpose of the activity.

# DAY CAMPS

Ratios & Groups	Square Ft/ % Capacity	Sanitation & Hygiene Cleaning	Hygiene	Transportation	Check-in/out Procedures	Programming	Food & Beverage	Visitors	Notes
<b>Phase 2</b>									
Closed	NA	NA	NA	NA	NA	NA	NA	NA	NA
<b>Phase 3</b>									
1:10; same children in group with same staff each day, limited intermingling of groups.	36 sq. ft. per person with physical distancing; 25 people per active use zone. Indoor and outdoor activities permitted.	Clean, sanitize, and disinfect frequently touched surfaces throughout the day. Maintain daily opening, closing sanitation to ensure cleanliness.	Reinforce frequent, proper handwashing upon check-in, every hour. Encourage mask use by staff and campers as feasible. Personal items should be contained and remain separate from other children's belongings.	Transportation limited to off-site emergency evacuation, with children spaced evenly throughout the bus.	Staff greets child at designated entrance or car (no parents should enter facility), perform wellness check, and sign the child in. If possible, institute a drive-through pickup/dropoff system and temperature check.	Activities should encourage physical distancing. Supplies and equipment should be sanitized between uses and not shared. Small groups or pods should be used to rotate through activities and limit intermingling.	Campers should bring their own meals as feasible, and eat in separate areas within small group. Use disposable utensils and ensure that non-disposable items and areas are sanitized properly. If food is provided, offer pre-packaged boxed or bagged lunch for each participant. Avoid food sharing.	Restrict all non-essential visitors, maintain detailed visitor log of all persons entering facility	Develop and publicly post a Health & Safety Plan following CDC guidance prior to start of program.
<b>Phase 4</b>									
1:10; same children in group with same staff each day, limited intermingling of groups.	36 sq. ft. per person represents social distancing; 90 people per active use zone.	Clean, sanitize, and disinfect frequently touched surfaces throughout the day. Maintain daily opening and closing sanitation to ensure cleanliness.	Reinforce frequent, proper handwashing upon check-in, every hour. Encourage staff use of masks wherever possible. Personal items should be contained and remain separate from other children's belongings.	Transportation limited to off-site emergency evacuation, with children spaced evenly throughout the bus.	Staff greets child at designated entrance or car (no parents should enter facility), perform wellness check, and sign the child in. Upon pickup, staff will meet and verify authorized adult, release child and sign them out.	Activities should encourage physical distancing. Shared supplies and equipment must be disinfected. Larger group activities should be limited to 20 minutes, not to exceed 30 children at a time.	Campers should bring their own meals as feasible, and eat in separate areas within small group. Use disposable utensils and ensure that non-disposable items and areas are sanitized properly. If food is provided, offer pre-packaged boxed or bagged lunch for each participant. Avoid food sharing.	Restrict parent access to sign-in/sign-out area at entrance of facility; maintain detailed visitor log of all persons entering facility	Develop and publicly post a Health & Safety Plan following CDC guidance prior to start of program.
